## TO THE CITIZENS OF LINCOLN COUNTY:

The Fourth Liberty Loan is the most essential of all. Don't let up. Give all that you can and then double it. This comes from headquarters:

Cleveland, Ohio, Oct. 13, 1918.

J. S. Hocker, Stanford, Ky.—Unbelievable as it is, we have been asked today from many quarters in the district whether the loan campaign should continue in view of the development of Germany's so-called acceptance of peace. This astounding condition brings us face to face with the evil purpose of our enemies to dupe our people and destroy the loan's success. If the Fourth Liberty Loan falls short, Germany will have won her greatest victory of the war. The hour has struck in which all real patriots in every community must rise in their might and hurl in the kaiser's face this answer: "Give everything we have if need be for victory." Liberty Loan committees bear the great responsibility of the hour and must provide the great leadership of the hour. In the name of all that is sacred to Liberty let us give the hun an answer that will bring him to his knees. That answer is convincing, oversubscriptions to the Fourth Loan. Let's go and get it.

D. C. WILLIS, Chairman.

Lincoln county citizens must secure about \$100,000 more subscriptions by Saturday night in order to reach her quota.

Every one is urged to work until that amount or more is secured—and the work must be finished by Saturday night.

Respectfully,

J. S. HOCKER, Chairman,

W. H. SHANKS, Assistant Chairman.

### AUTOCRACY MUST GO.

SAYS WILSON

The text of President Wilson's reply to Germany's acceptance of the peace propositions laid down by him is as follows:

"The unqualified acceptance by the present German government and by a large majority of the Reichstag of the terms laid down by the President of the United States of America in his address to the Congress of the United States on the 8th of January, 1918, and in his subsequent addresses, justifies the President in making a frank and direct statement of his decision with regard to the communications of the German government of the 8th and 12th of October, 1918."

He feels confident that he can safely assume that this will also be the judgment and decision of the Allied Governments. Cities and villages, if not destroyed, are being stripped of all they contain not only, but often of their very inhabitants.

"The President feels that it is also his duty to add that neither the Government of the United States, nor, he is quite sure, the Governments with which the United States is associated as a belligerent will consent to consider an armistice so long as the armed forces of Germany continue the illegal and inhuman practices which they still persist in."

"The nations associated against Germany can not be expected to agree to a cessation of arms while acts of inhumanity, spoliation and desecration are being continued which they justly look upon with horror and with burning hearts."

"It is necessary, also, in order that there may be no possibility of misunderstanding, that the President should very solemnly call the attention of the government of Germany to the language and plain intent of one of the terms of peace which the German government has now accepted. It is contained in the address of the President delivered at Mount Vernon on the 4th of July last."

"It must be clearly understood that the process of evacuation and the conditions of an armistice are matters which must be left to the judgment and advice of the military advisers of the United States and the Allied Governments, and the President feels it his duty to say that no arrangement can be accepted by the Government of the United States which does not provide absolutely satisfactory safeguards and guarantees of the maintenance of the present military supremacy of the armies of the United States and the Allies in the field."

"At the very time that the German government approaches the Government of the United States with proposals of peace, its submarines are engaged in sinking passenger ships at sea and not the ships alone but the very boats in which the passengers and crews seek to make their way to safety; and in their present enforced withdrawal from Flanders and France the German armies are pursuing a course of wanton destruction which has always been regarded as in direct violation of the rules and practices of civilized warfare."

"It is as follows: 'The destruction of every arbitrary power anywhere that can separately, secretly and of its single choice disturb the peace of the world; or, if it can not be presently destroyed, at least its reduction to impotency.'

"The power which has hitherto controlled the German nation is of the sort here described. It is within the choice of the German nation to alter it. The President's words just quoted naturally constitute a condition precedent to peace, if peace is to come by the action of the German people themselves."

"The President feels bound to say that the whole process of peace will, in his judgment depend upon the definiteness and the satisfactory character of the guarantees which can be given in this fundamental matter. It is indispensable that the governments associated against Germany should know beyond a peradventure with whom they are dealing."

"The President will make a separate reply to the Royal and Imperial government of Austria-Hungary."

"Accept, sir, the renewed assurance of my high consideration."

"ROBERT LANSING."

### RED CROSS NOTES

Please send to the Red Cross rooms all garments that have been finished by Saturday next, 19th.

Please take notice that the annual meeting of the Lincoln county chapter of the American National Red Cross will be held on October 23rd, at 3 o'clock of said day in the circuit court room for the election of an executive committee, consideration of and action upon reports, and transaction of such other business as may properly come before the chapter. Each member of the chapter is earnestly urged to be present. Esther W. Burch, secretary.

### GREAT NEED OF NURSES

Owing to the rapid spread of the present epidemic of influenza the safety of this country demands that all patriotic nurses, nurses' aids or any one with experience in nursing, place themselves at once at the disposal of the Government.

Graduate nurses, undergraduate nurses' aids and volunteers are urged to give their names, addresses, qualifications and earliest possible date of availability to their local Red Cross chapter.

### COLORIED SOLDIER DIES OF FLU

Jeal Blain, a colored soldier who went from this county to Camp Zachary Taylor with the last increment of his race, died there Monday of influenza and his body was sent home for burial. He was the son of Josie Blain, the good old colored woman who has cooked for Mrs. G. B. Cooper and family for many years.

### "A BOND IN EVERY HOME"

At a meeting held at the court-

house Friday night it was decided that every business man in the county be asked to close his house tomorrow, Wednesday, and give his time that day to the sale of Liberty Loan Bonds. Automobile routes have been laid off and early tomorrow morning autos filled with enthusiastic bond sellers will leave Stanford, Crab Orchard, Hustonville, McKinney, Waynesburg, Kings Mountain and the other towns of this good county.

Lincoln county must sell her quota of bonds and in order that she may do so, it has been decreed that Wednesday be designated as bond day and that a strenuous effort be made to have a bond in every home before the close of the day. Considerably more than \$100,000 worth of bonds have yet to be disposed of before the goal is reached and many who have bought will have to buy more in order that the top may be gained.

Make arrangements to be at home Wednesday and when the bond boosters come to see you, not only buy a bond but try and help them in the sale of another. The money is needed in the prosecution of the war and the government is offering a special dividend investment in order to get it.

If bonds are not sold taxes will be levied. It is evidence both of patriotism and good judgment to own a bond. Buy one, however small the denomination.

### CONNECTIONS TO BE MADE AT JUNCTION CITY

Some weeks ago Mr. Clarence E.

Woods, former Richmond editor and mayor of the city, but now U. S. Explosive Inspector of Florida, on an official visit to Chicago, was caught at Junction City, where he wished to make a connection and forced to remain there many hours. He thereupon wrote to Director General McAdoo and laid before him the long standing hostility between the two roads that caused them to punish the traveling public by cutting out all connections. Thousands of men, who have felt the force of the abuse, would have joined with Mr. Woods in appeal for relief. A response from the director general of railroads, through his actuary, Thomas H. Price, Esq., has been received, which promises early changes of time tables so that the principal trains at least will connect. If after all these years, Mr. Woods shall succeed in his efforts for the public comfort, not only we of this section will owe gratitude to him but every one who has suffered the miserable waits at Junction City, because of management meanness.

### WILSON WANTS REAL FRIENDS

At no previous time has the importance of every democrat laying aside all past differences and standing firmly behind the President in his great trials, been manifest as now. He needs and has appealed for the support of his real friends and we can not do less than respond by returning all the democrats to Congress from Kentucky, who have proven their loyalty to him and electing Gov. Stanley, whose patriotic efforts are known of all men, to succeed the lamented Ollie James in the Senate. Any other course would be notice to him and the country that we have ceased to realize the gravity of the situation and no longer care to help lighten the load that the greatest man in all the world is carrying. Do not let us give aid and comfort to the kaiser and his sympathizers but by stamping under the rooster send the real friends of the President to support him.

### DATES FIXED FOR HEFLIN

Nine speaking appointments have been arranged in Kentucky for Congressman Tom Hefflin, of Alabama, who is one of the most popular campaigners that ever spoke in this State. He will come here from North Carolina, and his first speech will be at Richmond in the afternoon of Oct. 25, and also speaking at Lexington that night. His other appointments are: Bloomfield, afternoon, and Shelbyville, night, Oct. 26; Greenville, afternoon, and Russellville, night, Oct. 28; Owensboro, afternoon, and Henderson, night, Oct. 29. After the Henderson appointment, Congressman Hefflin will go to Missouri, to take part in the campaign in that State, and from which he will come back to Kentucky and make the final speech of the campaign at New Castle in the afternoon of Nov. 4.

### DR. WEBER, FOOT DOCTOR

Dr. J. W. Weber, the foot doctor, who has treated hundreds of people in Lincoln and Garrard counties with great success, offers his services to the public. If you suffer with your feet you had better see him at once. Consultation and advice free. Office at Hunn House, Stanford. He will be at the Weatherford Hotel, Hustonville, each Tuesday and Friday.

### CARTER LOSES SON-IN-LAW

Capt. W. W. Carter, who makes frequent runs on the local train plying between Stanford and Richmond, has been called on to give up his son-in-law, Frank Wright, of Louisville. The clever young man died in that city of influenza Sunday.

### A BEAUTIFUL WOMAN

Congressman Harvey Helm is billed to speak at Danville next Monday afternoon, court day. A crowd from here will attend.

Miss Edith Keightley and Mr. J. G. Mallon went to Danville Tuesday and were united in marriage by Father Osmond of the Catholic church.—Danville Messenger.

### DEMOCRATIC CONGRESS SUREST

The most nonsensical reason for the election of a republican congress is made by the Kansas City Star, the paper that pays Col. Roosevelt a large sum for his mouthings against President Wilson's conduct of the war. It says that such result would be best for the country because a republican congress would support the President "enthusiastically" and criticize him "mercilessly." We have not a doubt that a republican congress would do the latter, but there are grave doubts that it would do the former. The President can rely on the enthusiastic support of his real friends. Therefore, it is the part of wisdom to return a democratic majority to Congress and Kentucky should lead the van by electing Stanley senator and each of the nominees for Congress. The latter have never wavered in support of the administration and can be depended upon to keep up the good work. They should be reelected by increased majorities as a token of approbation for their course. Let every patriot stamp under the rooster.

### WILL BE CLOSED UNTIL 2 P. M.

Every business house in Stanford, except the drug stores, will be closed until 2 o'clock tomorrow, Wednesday, afternoon and the drug stores are asked to sell nothing but medicine. This is done in order that the business men may spend a good portion of the day selling Liberty Loan Bonds. As stated elsewhere many autos will leave Stanford and the other towns in the county between 7 and 8 o'clock and visit every home that each may have one or more bonds. In fine, nothing will be left undone to put "A Bond in Every Home," a good slogan suggested by Hon. P. M. McRoberts, chairman of the speakers' bureau, in the sale of Fourth Liberty Bonds.

### WOMAN'S CLUB

Help the Woman's Club in its effort to put Lincoln county over the top in the Liberty Loan campaign. If you have not bought your bonds, every member of the club is ready and waiting to sell them to you. Not your bit, but your best is what Uncle Sam expects of you. Bonds to the amount of \$27,000 have been sold by the Woman's club. Let's increase this amount.

On account of the influenza epidemic the Woman's Club was compelled to postpone its last meeting, but work will be resumed as soon as possible. Those who owe dues are requested to see Miss Belle Denny and pay them to her.

Mr. Krueger had gotten to be a successful young lawyer and was one of Rockcastle's best business men. His death is the source of general regret in his home county and wherever he is known.

Jimmy wanted his tooth after it had been pulled, so the dentist wrapped it up in paper and gave it to him.

### PRESIDENT NEEDS STANLEY

The greatest man in all the world, who is carrying the weightiest burden ever placed on mortal shoulders, says in urging the election of Gov. Stanley to the U. S. Senate, that it is of the utmost importance that the administration shall have the unflinching assistance of its real friends at this time. Democrats and other supporters of the President will heed this appeal by sending the Governor to Washington by a majority that will leave no doubt about how Kentucky stands in the determination to win the war at any cost and any sacrifice. Any other course would be suicidal and hailed with delight by all German sympathizers.

### W. S. EMBRY CHAIRMAN

Entered at the postoffice at Stanford, Ky., as second class mail matter.

### MR. REPUBLICAN—READ THIS

In almost every speech delivered by Dr. Bruner, republican candidate for the Senate, he asserts that the democrats are making a political war out of the present great struggle, by claiming that it is necessary to elect democrats, as they are the only one who can be depended upon to stand by the President in his war policies. Dr. Bruner makes an effort to refute these democratic claims by saying that he is just as willing to aid the President as Gov. Stanley, and affects to believe that it is an insult to his patriotism, to urge the election of Gov. Stanley over him, on the grounds that the governor will do more for the President's war policies than he.

In answer to Dr. Bruner, we respectfully invite the attention of every voter, and especially the republicans, to the following extract from a speech delivered by the late President Benjamin Harrison, during the Spanish-American war. Said he: "If the word goes forth that the people of the United States are standing solidly behind the President, the task of the peace commissioners will be easy; but if there is a break in the ranks, if the democrats score a telling victory, if democratic senators, congressmen and governors are elected—Spain will see in it a gleam of hope, she will take fresh hope, and a renewal of hostilities, more war may be necessary to secure us what we have already won."

Let every man remember that the President of the United States during the Spanish-American war, was a republican, and his backers went forth to the people then, telling that it was necessary to have republicans elected in order that the Spanish war might be brought to a successful close.

We hope that any man who has been led astray by the claim that Dr. Bruner will be as useful in the Senate as Gov. Stanley, will carefully read the above extract from the speech of one of our great presidents.

### REPUBLICAN CONTROL

The criticisms of Senator Lodge, of Massachusetts, of the President's masterly reply to the German challenge, referring to it as "a series of questions, which may open up another long correspondence with Germany," shows the danger of republican opposition in the Senate and emphasizes anew the great importance of sending a man from Kentucky, who is a real supporter of the President and who will not give aid and comfort to the enemy and his friends in this country. Mr. Lodge saw a chance, or thought he did, to make capital for his party and help his own ambition to be the next republican nominee for president and did not hesitate to make criticisms of the President that might tend to destroy the confidence of the world in him. Several democrats replied in a way that should have made the leader of the minority in the Senate ashamed of himself, if he is not entirely lost to propriety. Suppose that the Senate had a majority of such men as Lodge, who could the President accomplish with that everlasting heckling and badgering? Kentucky's representative may determine the majority of the next Senate and it is all important that we send a man who will follow the advice of Senator James in his last speech: "Do not annoy the President. Keep silence. Hold your tongues." Gov. Stanley has said that he will support the President in all things that he thinks necessary to win the war. Let us send him to Washington by a majority that will leave no doubt of our absolute confidence in the greatest of men, who is carrying the heaviest of burdens.

### BEGINNING OF THE END

The representative of the kaiser has apparently accepted the terms laid down by the President looking to an armistice, but little dependence must be placed on a nation that has proved so treacherous and which regards treaties as mere scraps of paper. It is evident that the Germans are now trying to win by diplomacy, what they have lost in battle, but God reigns and the government at Washington still lives in the person of a man, whom He seems to have raised for this world crisis. He is patient and long suffering and slow to anger and being a man of the most remarkable poise the country can rest assured that he will pilot the ship of state over all the billows and anchor it safely in the port of victorious peace. While people should not jump at the conclusion that the war is over or relax any of their energies towards winning it, the beginning of the end seems in sight. Let us therefore praise and return thanks to God and subscribe again to Liberty bonds, which will be the more valuable by the early ending of the war.

An aftermath of the scandalous expenditure of money to secure the republican nomination for senator from Michigan comes in an inquiry by a Federal grand jury in the matter. Two prominent business men of Detroit and the treasurer and publicity director of the campaign were adjudged guilty of contempt in refusing to answer questions and were only saved from prison sentences by an appeal to habeas corpus proceedings. Lt. Commander Newberry of the U. S. Navy, beat Henry Ford for the republican nomination, which must have been regarded as desperate matter when so much money was used to defeat him. In that state a man can run in the primary on two tickets and Mr. Ford was unopposed on the democratic ticket. He says he did not spend a cent in either race and will not to secure the election. It is hoped that if Newberry should win the victory will do him no good as such fraud as is charged, if proven, would vitiate the election.

**EMBRY TAKES PEN IN HAND**  
Headquarters First Army Corps, American Expeditionary Forces, Aug. 27. Dear Interior: It was my thought to write you a few lines ere this, but so pressed have I been with my duties over here that an opportunity did not present itself. When I arrived here I was assigned to Headquarters First Army Corps. As you probably recall I entered the service last Nov. 30th, nine months ago, and have been awarded one six-months' service stripe. I find my duties as an army field clerk very interesting.

I have received the Interior Journal since my arrival in France and can assure you that I certainly appreciate every issue that I get. I know all the boys here in France appreciate home papers, especially of small communities where the news is more in the form of a letter and a great deal is contained therein they would otherwise miss. During my sojourn in France I have met many Kentucky boys, some of them with the First Pioneer Infantry, with whom I have had the pleasure of speaking, and they all seem to be well pleased and ready to meet the forces of the kaiser in a hand-to-hand encounter should the opportunity present itself. I, also, had the good fortune to be stationed in the same village, for quite a while, with Capt. E. G. Flaig, of Danville, Ky. Later had a pleasant surprise of meeting and being with Francis Weatherford for several days; on two separate occasions. The first night we spent together we were shelled and consequently did not get any too much sleep. It was a great experience to us at that time. However, I judge at the present stage we both can sleep without difficulty when they are dropping. Probably a little too well. We had our pictures taken together, one of which I am enclosing.

As you have undoubtedly read in the newspapers this corps has been the first American army corps to get into the ring and accomplish things. I should like very much to write more in detail of the various places through which I have traveled since I have been in France and would like also to describe to you many interesting scenes which I have observed here, but to do so would be in contravention of existing censorship regulations on the subject and of course I desire to bring myself within such regulations.

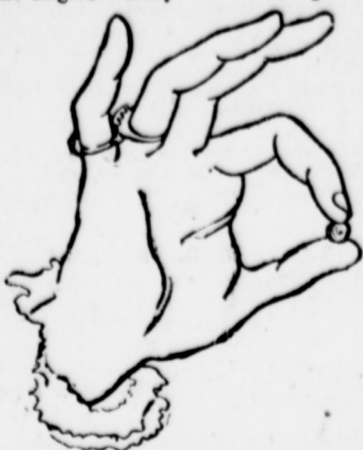

Many times have I thought of the work which has been done and is being done back home, and I am most especially interested in the work of Lincoln county, which I must say has done splendidly well. I congratulate your paper, the good work it has accomplished, the articles published and especially those items which were published in regard to spies. I am proud that I am a Kentuckian of the county of Lincoln and no one will be greater pleased when I am at liberty to return to shelter there.

When you next write Claiborne remember me to him and say that I wish his duties bring many pleasant experiences. Hoping this finds you in the best of health and with warmest personal regards, I remain, yours sincerely, **WESLEY D. EMBRY.**

### ONE OF WAR'S BRIGHT SPOTS

Another bright spot in the war stories was that of the negro woman whose husband had gone into the army, first taking out a \$10,000 insurance policy in favor of his wife. Not long after she received news of his death in a Southern camp.

"Praise the Lawd!" she cried. "I won't never have to cook no more." And she put on her hat and left her employer's dinner on the stove, while she went out to buy becoming mourning.

### AGED RESIDENT HAS NARROW ESCAPE

"I was at my work, my limbs became numb, I got dizzy and faint, my ears seemed stopped up. I had been troubled with gas on my stomach and severe bloating after meals. Doctors failed to help me. One dose of Mayr's Wonderful Remedy, recommended by the corner druggist, proved a life-saver to me. I am continuing with it with splendid results." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. The Lincoln Pharmacy; The Penny Drug Store.

P. S.—Speak a good word to the boys back home and tell them we are after the kaiser's scalp and we think we will get it. **W. D. E.**

Gen. March, chief of staff, announces that there are now in France 1,900,000 American soldiers, that there are 2,000,000 in army camps in the United States, and that 2,000,000 more would be called into service. He was emphasizing the point that this is no time to slacken the effort to defeat Germany.

Can Now Eat and Sleep in Comfort

If troubled with indigestion or sleeplessness you should read what Miss Agnes Turner, Chicago, Ill., has to say: "Overwork, irregular meals and carelessness regarding the ordinary rules of health, gradually undermined it until last fall I became a wreck of my former self. I suffered from continual headache, was unable to digest my food, which seemed to lay as a dead weight on my stomach. I was very constipated and my complexion became dark, yellow and muddy as I felt. Sleeplessness was added to my misery, and I would awake as tired as when I went to sleep. I heard of Chamberlain's Tablets and found such relief after taking them that I kept up the treatment for nearly two months. They cleansed my stomach, invigorated my system, and since that time I can eat and sleep in comfort. I am today entirely well."

Jerry Rush, of Skaggs Creek, Rockcastle county, is dead of pneumonia.
